greateoceanproperties

substantial vacant allotment with subdivisinal potential

There is very limited land available in Aireys Inlet and this substantial 975sqm (app) allotment has the size and position to do something special. The land predominantly faces north to face the river, however does have some exposure towards the Great Ocean Road that would be suitable for a shop front. The zoning is flexible in use and accommodation is a permitted use. The land adjoins the beautiful Strapper shop freehold which is one of the most prominent commercial spaces in Aireys Inlet. Any future development will find itself amongst businesses with strong track records with high patronage that could be taken advantage of. Documentation is available on request.
